

Centrally Located

The Manhattan Hotel, New York, USA

10/9/2018

Our experience staying at the Manhattan Hotel was pleasureable. We stayed in a one bedroom and it was spacious for New York standards. There was a fitness room on site, but we didn't use the facilities. They served fresh coffee and tea and cookies from 11am - 4pm in their Owner's Lounge. It's centrally located. We were able to walk to Central Park, Times Square, Broadway and subway entrances.
