

good location average hotel.

The Kensington Hotel, London, UK

11/8/2018

Just thought give a update of this hotel, stayed here on the 7th nov for the night while seeing the a live show. close to the earls court which was really good :) the hotel is nice overall, good reception area with lounge, nicely decorated. The room that stayed in had 2 double beds down in basement, couple of stairs to go down, room was tidy, clean (bed sheets had few marks on them), the tv was bad, reception not good, kept cutting out and skippin back to sky3 lol bathroom is tiny, everything is so close, sink, toilet and shower (shower was alright tho) noise coming from chairs or tables moving upstairs at around 630am onwards, walls are thin, can hear people next door! Otherwise its a average hotel.
