The Wharf Hotel, San Francisco, USA

10/30/2018

This hotel is wonderful to stay if you want to wake up and see the city. It is steps from fisherman's wharf San Francisco where there is nightlife, shopping, great food, entertainment, and scenery. It is very centrally located. I have stayed at this hotel many times. I am from San Francisco and I always stay here. It has parking, fitness center, continental breakfast, and great service. I highly recommend this hotel to everyone due to it 's economical prices. Whenever I am in town for business or pleasure I stay here.
